

# Jussi Nevavuori

## Fullstack Developer & Designer

I am a creative and entrepreneur-minded full-stack software developer & designer from Finland. I have skills ranging the full product development stack from UX design to implementation. I am moving to Australia next July and will be staying for a year.

### Experience

#### CTO & Co-founder

[Inclusive Mobility](#) · 1/2024 — Present

Founded a mobility startup focusing on rental of electric wheelchairs and B2B accessibility services. I designed and developed the entire application in 2 months.

#### Fullstack Developer & Designer

[Vertics](#) · 7/2022 — 6/2024

Developed & designed software for clients solo or as team lead. Improved brand by redesigning company homepage. Participated in sales and client management. Supported and educated colleagues.

Mentionable projects

[Kaikkitoimitilat.fi](#) [Gearhead Cloud](#) [Serwes](#) [Vertics.co](#) ...

7/2021 — 6/2022 [Conscription](#) · Army (Officer Training, Second Lieutenant)

#### Fullstack Developer & Designer

[Ceon](#) · 4/2020 — 6/2021

Developed & designed software for clients solo or as lead of small team.

Mentionable projects

[Verkkokokous.fi](#) [Taloyhtiö 2021 Tools](#)

#### Freelance Developer & Graphic Designer

Self-employed · 2015 — Present

I have designed brands and developed and designed software for multiple companies as a self-employed freelancer as a side project since 2015, including various personal side projects.

2020 Spring	<a href="#">Assistant Teacher</a> · Aalto University
2019	<a href="#">Head of Student Marketing</a> · University CS Guild · Voluntary
2019 Summer	<a href="#">Electric Contract Salesperson</a> · Loiste
2018 Spring	<a href="#">Substitute Teacher</a> · Uusikaupunki Upper Secondary
2016 — 2018	<a href="#">Student Board Member</a> · Uusikaupunki Upper Secondary
2014 — 2017	<a href="#">Fast Food Worker</a> · Hesburger

## Primary Tools & Technologies

---

### Languages

- Typescript
- Javascript
- SQL
- HTML & CSS
- Python

### Databases

- PostgreSQL
- MySQL
- Firestore
- MongoDB
- GraphQL
- PlanetScale
- Neon
- Redis

### Frontend

- Next.js
- React
- Svelte
- Astro
- Tailwind
- Vue

### Services

- Stripe
- Resend, Sendgrid
- Twilio
- Wordpress
- Contentful
- Clerk

### Backend & Infra

- Docker
- Google Cloud
- Node.js / Bun / Deno
- Prisma, Drizzle
- Vercel
- AWS
- Firebase

### Mobile

- React Native
- Expo

### Design

- Figma
- Adobe Illustrator
- Adobe Photoshop

*This is a list of some primary tools & technologies I've worked with in the recent past. I am not defined by this list, and I always use and learn the tools that best suit the problem at hand.*

## Latest Projects

---

### Inclusive Mobility

## Primary Skills

---

### Fullstack Development

I have developed over a dozen fullstack applications during my career for clients and myself.

### UI & UX Design

I have completely designed or co-designed the user interface and experience for most of my applications. I have also done design-only client projects.

### Graphic Design

I have created and improved multiple brands, logos, and other materials for different clients and myself.

### Leadership Skills

I have worked as the lead developer or Scrum Master on multiple projects. I have great personal and communication skills.

### Educational Skills

I take pride in being a good educator on both technical and non-technical subjects and take joy in teaching.

### Devops, Infra, CI/CD

I have developed CI/CD pipelines for multiple projects, as well as set up, optimized and maintained different infrastructure.

### Service Design

I have helped multiple startups design and improve their services along with designing my own.

### Copywriting

As a combination of good communication and design skills, I can write high-quality, effective, simple, and short copy text.
